

AIRSTREAM® Rangeline 21PL

2027 TOURING COACHES

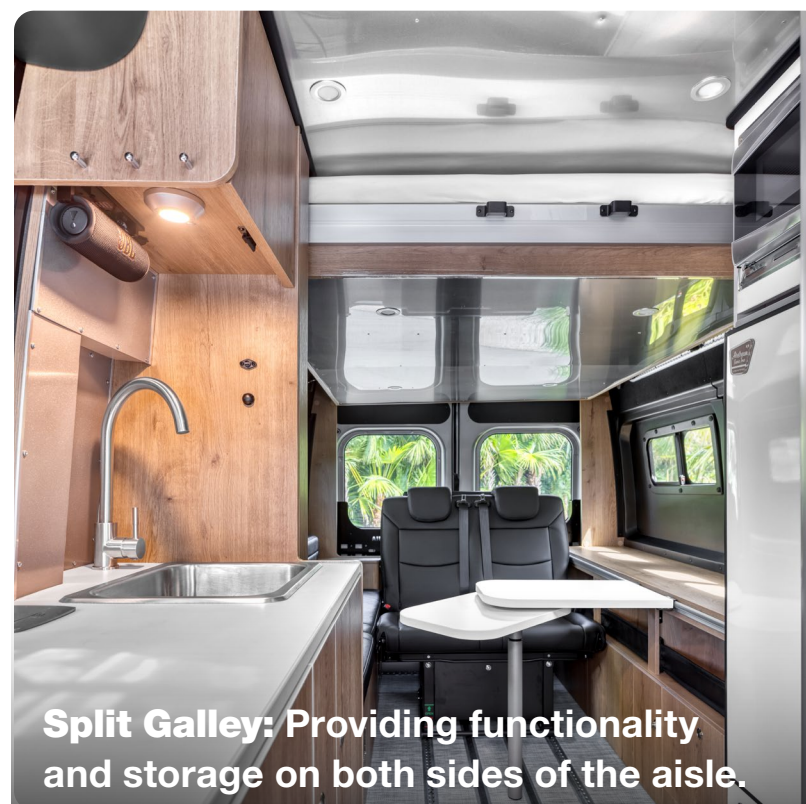

INTRODUCING

The All-New Rangeline 21PL

Meet the all-new Airstream Rangeline 21PL Touring Coach. Named for its 21-foot length and innovative Premier Loft bed with sleeping space for four, the 21PL joins the Rangeline 21PS and expands the lineup with even more family-friendly adventure capability. With a 2,500-lb. tow capacity and 350-lb. hitch weight, the Rangeline 21PL is ready for every kind of journey.

Enjoy the comfort, convenience, and thoughtful craftsmanship Airstream has perfected for more than 95 years in a touring coach designed to help you experience more wherever the road leads.

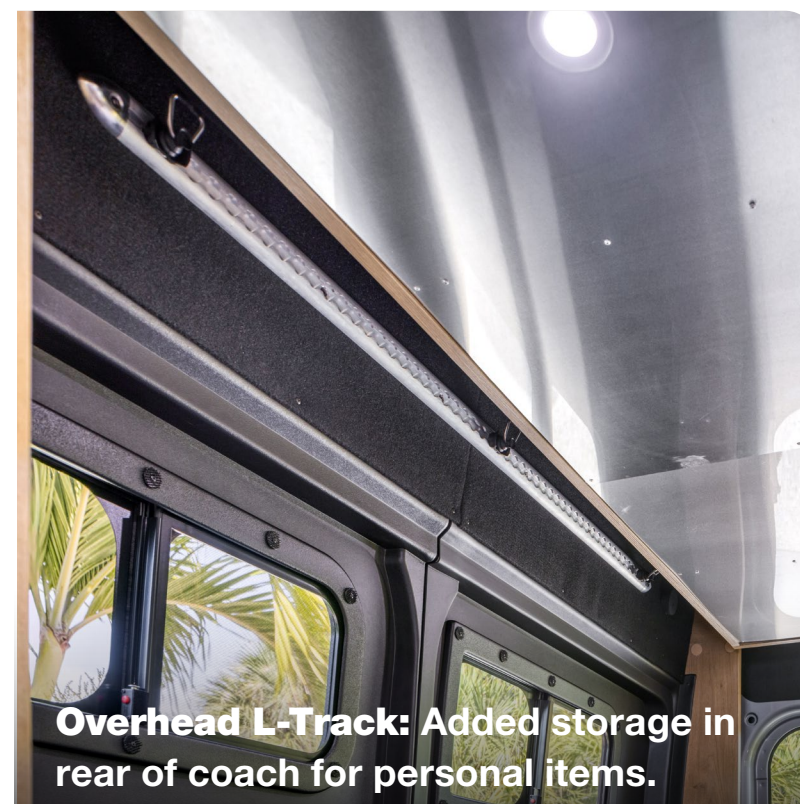

Built for premium touring and maximum versatility, the 21PL packs expert design into every inch—from the split galley with dual-sided functionality, exterior-access counter extension, and oversized 4.3 cu. ft. refrigerator/freezer, to the innovative power loft bed featuring a memory foam mattress, panoramic skyline views, multiple height positions, and comfortable sleeping for four—all without the need for a pop-top.

Split Galley: Providing functionality and storage on both sides of the aisle.

Power Loft Bed: Provides sleeping capacity for 2 additional passengers.

Overhead L-Track: Added storage in rear of coach for personal items.

A Travel Van for Families, Couples, and Solo Adventurers

For nature photographer Ben Hicks and his family of four, the Rangeline 21PL was the perfect way to explore the Florida Keys. Cruising one of America's most scenic road trip routes, the Hicks family enjoyed the journey as much as the destination—setting up camp at Sugarloaf Key KOA before venturing out to experience the turtle hospital, Key West, and all of the lower Keys in comfort, convenience, and style.

Whether you're traveling with your whole family like the Hicks, or you're on an epic solo adventure, the power loft bed enables you to transform sleeping space into living space with the touch of a button.

Interior Décor

“Traveling and camping with a couple kids in tow can be messy, but the materials make it so easy to clean up. We spend a lot less time cleaning, and more time enjoying the adventure.” **MARCUS AND JANELLE** Rangeline Owners

Floor Plan

Rangeline 21PL's powered loft bed system makes it easy for families to quickly create comfortable sleeping space for four. The removable rear Smartbench converts into a 74 in x 52 in bed below, while the power loft bed lowers at the push of a button and adjusts to multiple heights for added flexibility and comfort. Families can comfortably sleep four, while solo travelers and couples can lower the loft completely to create a spacious primary sleeping area. When lowered, the loft also reveals a skylight with a built-in shade that fills the interior with natural light.

Exterior Features

Built on the trusted RAM ProMaster chassis, the Rangeline 21PL combines confident performance with advanced comfort and technology. A wide windshield and elevated seating position provide expansive road views, while Apple CarPlay® and Android Auto™ integration through the 10.1” UConnect 5 Nav touchscreen keep navigation, music, and messaging seamlessly connected. Features like Active Lane Assist, Active Cruise Control, backup cameras, and a digital rearview mirror add confidence and convenience to every mile.

1 SuperSprings® (rear): Providing additional ride height and ground clearance

3 Exterior TV and Internet Inlets (Coax and Ethernet Cat6): Starlink Connection/Prewire: Installation of pre-wire connection for ease of connected systems

5 Power Loft Bed: Provides sleeping capacity for 2 additional passengers.

2 Two Skylights: Providing additional natural light above loft bed and inside the shower, adding four inches of standing height to the shower area 74.5 in

4 Integrated L-Track Floor System: L-Track built into the floor provides capability to move the Smartbench forward and back for access to additional storage space.

6 Single fuel source with standard lithium batteries and 2.8 kWh generator for ease of use and off-grid adventures

Specifications

Chassis	RAM ProMaster® 3500
Engine	3.6L Pentastar® V6 VVT Engine
Emissions	50 State – EPA/CARB Standards
Horsepower/Torque	276 HP @ 6400 RPM / 250 ft/lbs @ 4400 RPM

Why You'll Love It

With Rangeline 21PL, families and couples can travel farther, explore deeper, and experience more—without sacrificing comfort or convenience.

Thoughtfully engineered from the ground up and backed by more than 95 years of Airstream travel expertise, the 21PL maximizes every inch with flexible living, ample storage, and premium features designed for life on the move. Unlike piecemeal van upfits, Airstream designs the entire experience holistically, creating a touring coach that feels equally at home as a beach house, mountain cabin, downtown retreat, or sports-team basecamp.

With sleeping space for four, an onboard kitchen and bathroom, versatile storage, and nationwide support from more than 70 Airstream dealers, the Rangeline 21PL is built to make every adventure easier, more comfortable, and more memorable. The only question is: where will you go next?
